

Malta: Stargate

11/11/11 Activation and the Reawakening of the Goddess with Spiritual Seminars and Ceremonies

November 7-14, 2011 OPTION SICILY - November 14-17, 2011

Malta, a tiny island group with its sunshine and harbors, has been home to early temple builders, Phoenicians, Greeks, Romans, pirates, Turks and Arabs. St. Paul was shipwrecked on its shores, and the heroic crusading Knights of St. John settled here. Malta's immense prehistoric temple complexes are older than Stonehenge or the pyramids of Egypt. This is a sacred place where the Goddess has been worshipped from ancient times.

For thousands of years people have traveled to these sites to embody their own oracle power, to commune with the Goddess, to honor her cycles, and to feel her healing powers. You are invited to rekindle the fires of renewal, healing and rediscover your forgotten divine memories. On this amazing tour we will explore the mysteries, experience special workshops, shop for treasures, enjoy the beautiful beaches, and many extras along the way. We will have excellent guides and many opportunities for spontaneous gatherings. You will feel these amazing sacred places for yourself and feel the ancient one calling to you as they bless you with their wisdom.

*Here is what Jonette's guide, White Eagle had to say about Malta...**"This date is a day of doorways opening, taking the Solstice Initiation from the Great Pyramid 2010 and making it more physical; opening portals at high frequencies that have been closed. The doorways of 11/11 make these portals accessible and physical to earthlings; grounding the highest spiritual energies into this time and place. The reason you are being called to Malta, with its Atlantean history is that there will be healing of the black energies of Atlantis and a reclaiming of sovereignty over meddling and negative ET forces."***

*"Ashtatara (the Goddess of Atlantis), Isis, Sekhmet (the lion goddess of Egypt), and other **faces of the divine female will be invoked** to bring a stronger presence into Earth. **It is a re-dedication of humanity to the principles of Light and Balance. There will be a higher level of grail codes or DNA activated.** This will create a stronger experience of Light infused matter known as the "plasma state of consciousness." Many will be invited to this activation. The spirals of time will appear to run forward and backward."*

Goal for Sicily (a post Malta option) - "The visit to Sicily is dominated by three things, Mt Etna, the Greek and Roman cultures, and the energy of family. The goal will be to bring the energetic power from Malta, imbed it energetically with the help of the volcano into family and civilizations. It will be about integrating the Maltese experiment into reality. (And good food and wine!)"
